THE MILITARY TABLEAUX AT ARMORY HALL. The Tableaux of the Fencibles at Armory Hall, last evening, attracted a large audience, who manifested the highest gratification at the display. The music and the lights made the exhibition one of the most fascinating we ever attended. The Tableaux will be re-produced at the Armory of the Fencibles for the last time, this evening, and those who wish to behold novel and entertaining sights, and, at the same time, show their good will towards a gallant military company of their fellow-citizens, should not fail to attend.

Such living representations as the Goddess of Liberty presenting Washington with the Declaration of Iudependence, the Constitution and the Flag of the Union; the Field of Monmouth, representing Capt. MOLLY PITORER loading the cappon: Raising the Stars and Stripes at Fort Sumter; Massacro at Wyoming; the Death of Warren; the Fight for the Standard, and Washlugton crossing the Delaware, will richly repay any one for a vieit of an hour or two, at Armory Hall, this evening.

IF The weather is delightful. What could be a finer opening for the genial Spring than the first two days of March have been this year? It has been warm and pleasant-more like the bright days of the leafy June than the cold and boisterous ones of March, of which we have so often heard and read. On the whole, though we are prepared to feel some cold snaps and see some rough days, in the month that has just greated us so smilingly, we believe there is more nonsense uttered in silly complaints and evil prognostications about the weather than on almost any other subject. The weather, take it all in all, like most things that God sends us, is good, very good.

NOVES' NEW SYSTEM OF CUTTING GARMENTS. -This invention, by means of varied lines upon charte or cuts, is adapted to cutting ladies' dresses, basques, children's dresses, boys' coats, pants and shirts, and in fact, to all kinds of garments. It is so simple that even a child can learn to use it in a few minutes, and so accurate that any garment may be made to fit with neatness and despatch, This is said upon actual examination and trial. The charts for outting garments by this system may be obtained of Mr. and Miss NEXPLES, at the American Hotel.

COURT OF COMMON PLEAS .- The court was engaged yesterday afternoon and until nine o'clock in the evening, in hearing the testimony in the case of MORRILL V. GLOVER and others.— This forenoon was occupied by counsel in their arguments to the Jury.

RELIGIOUS NOTICE. - Rev. THOMAS GORMAN will deliver a discourse in the Universalist Church, Sunday evening, 3d inst., "Upon the Best Mode of Getting up Revivals of Religion. Services at seven o'clock.

RATHER OMINOUS .- The Cleveland Herald re cords that the fishing schooner Abs Lincoln, which left that port on Thursday morning, for Black River, capsized, when five or six miles out. This, the Herald adds, is the first clearance and the first disaster of the season.

IT Mahoning Oil Reporter is the name of a neat little paper just started at Youngstown.

Twalve Reasons Why You Should Go to No. 121

South High Street. Because you can buy the best Clothing there Because you can purchase without bantering Because you can buy cheaper than at any oth-

Because you can buy better made garments Because you can certainly expect fair and hon-

orable dealing. Because you can trade pleasantly and without

vexation. Because you can find a better assortment

Cloths, Cansimeres and Vestings. Because you can get your Clothing cut by at experienced and fashionable cutter.

Because you can buy more and better good for the same amuent of money.

Because you can buy at CLARK's New York Clothing Store, No. 121 South High Street. Because everybody goes there.

INTERESTING.—If housekeepers really understood the great difference that exists between different hrands of Saleratus, as to quality, purity, and consequent reliability and healthfulness, they would not long be without the best that is manufactured. Dr. Land & Co.'s Saleratus costs you no more than any of the inferior articles which are in market. He is using a new process of refining Saleratus, by which all impurities are removed. This process is in use at no other establishment in this country. The quality of the Saleratus produced by this process is very superior, and it is fast becoming very popular with intelligent housewives. Dr. Land & Co.'s Saleratus is for sale by most grocers and storekeepers. Manufactured and for sale at wholesale, at Fairport, Monroe county, New York. The principal grocers also wholesale it.

Adjourned.

Washington, Mar. 2—The Speaker laid before the House a letter from Thomas H. Ford, resigning his office as Printer.

The occasional struggle for a recognition by the Speaker occasioned the greatest possible confusion; twenty or more members vigorously springing to their feet, holding in their outstretched hands the propositional they severally was deafening. That officer bore this infliction with becoming resignation.

Mr. Haakin, from the Committee on Printing, reported resolutions, which were passed, to print 20,000 copies of the abstracted bonds investigation; also, the same number of Mordocal & Delands and the process is in the Committee on Printing and the process and the proposition of the same number of Mordocal & Delands and the process is the proposition of the same number of Mordocal & Delands and the process is the proposition of the same number of more than any of the inferior articles which are in market. He is using a least of the House a letter from Thomas H. Ford, resigning his office as Printer.

The coccasional struggle for a recognition by the Speaker occasioned the greatest possible confusion; twenty or more members vigorously structure of the House a letter from

natural rights-but not in intellect and inventive genies. Thousands of Saleratus makers have tried in vain to make a first rate article!— James Pyle has surpassed them all, and his Diet-etic Salaratus is the perfection of the art. De-pot, 345 Washington Street, New York. Sold by grocers everywhere

REPORTED FOR THE STATESMAN.

CONGHESSION AL. SENATE.

WASHINGTON, March 1.

Washington, March 1.

A resolution allowing Commodore Paulding to receive a grant of land and sword from Nicaragua, was taken up. The grant of land was stricken out, and then passed.

A hill for reimbursing Commodore Paulding for his expenses in defending a suit brought by one of Walker's men, was passed.

The report of the select committee on the Peace Conference and the Crittenden propositions was taken up.

Mr. Douglas saked that the resolutions from the House be also taken up. Agreed to.

Mr. Mason said they ought to be sent to the committee to be made intelligible.

Objection was made to taking up the resolutions.

Mr. Seward claimed that the amendmen Mr. Hunter would change the character of the proposition, which would not be the recommen-dation of the Peace Conference, but of Con-Considerable debate followed.

Mr. Clark suggested to Mr. Hunter to offer the Crittenden resolutions as a whole, not as a Mr. Hunter opened against the proposition, arguing that if it was adopted the South would loose the advantages of the Dred Scott deci-

Mr. Crittenden was willing to sacrifice his own views for the good of the country, and would vote against his own and in in favor of these, in hopes of a pacific settlement.

Mr. Mason did not favor amending the Con-

stitution, nor sanctioning the plan proposed by the Peace Convention. He denounced it as subversive of what rights ithe South already

A long discussion ensued.

Mr. Baker argued in favor of submitting the question to the people, saying. If events change so much, he was willing to violate the Chicago platform, was willing to give up a great deal the Border States, but nothing to secession. Mr. Green said the propositions of the Con-ference were the merest twaddle, but the Crit-tenden Resolutions have some sense. The

right of property must be settled beyond a doub everywhere.

The resolutions of the House were made special order for to-morrow at 12 o'clock.
Mr. Lane spoke in favor of the Crittenden
Resolutions; pending which the Senate ad-

HOUSE.

The report of the committee of thirty thre Mr. Lovejoy moved to postpone till the four

The Speaker quoted the rule that a member reporting a measure may open and close the debate, and gave the floor to Mr. Corwin.

Mr. Lovejoy appealed, and the House sustained the Chair.

The pending proposition was an act admit ting New Mexico into the Union. Mr. Hickman moved to lay it on the table carried—114 against 17.

Mr. Hickman moved to postpone till Mon

The Speaker ruled the motion out of order. The bill was passed—91 against 82. The bill to amend the set for the renditi-

of fugitives from justice, was taken up.

Mr. Corwin explained its provisions. It was to avoid contradictory decisions made by Governors of States, which are not constitutional aw. The bill was rejected—47 against 126. law. The bill was rejected—47 against 126.

Mr. Grow asked to proceed to the consideration of territorial business.

The Speaker asked leave to present the pro

ceedings of the Peace Congress.

Mr. McClernand moved to suspend the rules.

Great confusion. Some said they wanted to consider more important business.

Mr. Boteler loudly asked what could be more

important than the peace of the country.

Mr. Grow contended that the territorial business was set for consideration after Mr. Corwin's report, and was now up.

The Speaker overruled the point.

Mr. Grow appealed from the decision.

A motion was made to table the appeal.

Mr. Burnett said, as the effect of the received.

rnett said, as the effect of the vote w prevent a vote on the peace proposition, he emanded the year and nays. Here the Speaker declared a recess till clock, in accordance with previous order. On re-assembling, the Speaker stated the

Mr. Hickman moved a call of the House.
Mr. McClernand proposed that the report of the Peace Conference be taken up.

Mr. Lovejoy objected. During a call of the House, Mr. Hughes ask ed that the Sergeant-at Arms might bring the seceding members before the bar of the House, as they had been absent since December

Mr. Sherman moved to suspend the rules requiring that no bill be sent from one house to the other within the last three days of the session, for concurrence; and no bill be presented to the President on the last day of the session.

Mr. McCleruand proposed to take a vote at 11 o'clock to-morrow on the Peace Conference

proposition.

The Speaker reviewed his former decision, and said the territorial business was in order.

Mr. Grow, being willing that a vote be taken on the suspension of the rules for the reception of the Peace Conference proposition, a motion was made accordingly, but the House decided not to suspend the rules—92 against 65.

The resolution passed paying Williamson one thousand dollars, expenses for contesting Sickles' seat.

The Nevada Territorial bill passed; also, the Dacotah bill.

The joint rule was suspended, and the Sen-ate's amendment to the Postoffice bill was made the special order for to-morrow at 12.

After much squabbling, the volunteer bill

was taken up.

John Cochrane opposed it.

was deafening. That officer bore this infliction with becoming resignation.

Mr. Haskin, from the Committee on Printing, reported resolutions, which were passed, to print 20,000 copies of the abstracted bonds investigation; also, the same number of Mordocai & Delafield's report on military operations in the Grimes; also, 2,000 copies of the Morrill amended tariff bill.

The House proceeded to the Senate's amendments to the Possofice bill.

FORT REARNEY, March 1.—The Popy Expres with San Francisco dates to Feb. 15th, passe here this morning, several hours ahead

time. Lady Franklin salled on the 15th for Britis

Lady Franklin salled on the 15th for British Columbia.

The Pony Express, with Atlantic dates to Feb. 2d, had arrived, bringing the news of the passage of the Pacific Rail Road bill by the Senate, which was joyfelly received.

New Haven, March 1.—A boller in the gun factory of Whitney, Aims & Co. exploded at noon, descolishing the machinery in the east and of the building, and injuring some twenty percents. Maj. Norton and Mr. Oliver were blown across the street, Faul Savage, engineer, was seriously injured; E. R. Farmer, W. S. Rich-Disease of the Skin, when such certain remidies as Molgan's Strenotane Cordial and Bloom of the building, and injuring some twenty persons. Mal. Notion and Mc. Oliver were blown such as the surface of the building, and injuring some twenty persons. Mal. Notion and Mc. Oliver were blown such as the surface of the surface

Wassington, March 1.—Lieutenants Hayes and Holmes have resigned from the Marine Corps, and are going South. Lieutenants Bailey and Montgomery, of the Army, have resigned and are going South.

The Republican members of the Ohio Senate unanimously recommend Mr. Colfax for Pes:-

raster General.

The steamer Pawnee arrived to-day.

The Marine Corps paid a farewell visit to Air.

ettled, except by rumors, which are conflicting.

Washington, March 1.—The following Is an abstract of the amendment to the act for the rendition of fugitives from labor, which passed the House to day: Every person arrested shall be produced before the Court, Judge or Commissioner for the State or Territory when the arrest is made; such Court to proceed to hear and consider the same publicly; and if such Court, &c., is of the opinion that the person arrested, owes labor or service to claimant, ac-Objection was made to taking up the resolutions.

Mr. Seward offered his joint resolution as a
substitute.

Mr. Hunter moved to strike out the first article of the Peace Conference proposition, and
insert the first of the Crittenden resolutions.

Mr. Clingman raised a point of order against
any amendment.

Mr. Seward claimed that the amendment of to the Marshal of the State from which the fugitive is ascertained to have fled, who shall
produce the said fugitive before one of the
Judges of the Circuit Court for the last mentioned State, who shall cause a jury to be empannelled to try whether such fugitive owes labor or service, the fugitive being entitled to the
said of counsel and to process for procuring evidence at the cost of the United States. And
upon such finding, the Judge shall render judgment, causing the fugitive to be delivered to the
claimant or returned to the place where arrest.

claimant or returned to the place where arrested, at the expense of the Government. If the Judge is not satisfied with the verdict, he may cause another jury to try forthwith, whose ver-dict shall be final. A section, also, imposes a fine of \$1000 on the Marshal if he does not fulfill the duty assigned to him by this act. Section two enacts that no citizen shall be compelled to aid the Marshal or owner in the capture, unless force is employed for capture from the Marshal; also, fixing the fee to the Commis-

sioner at \$10.

Senators Wigfall and Hemphill gave notice they will withdraw from the Senate to-morrow, they being convinced that the Texas secession ordinance is ratified by the people.

The Tribune correspondent east Lincoln requested an interview with Cameron. After

explanations, the latter was offered a seat in the Cabinet, to which he replied he could accept no other Department than the Treasury. Mr. Purviance, Attorney General of Pennsylvania, waited on Mr. Lincoln, and in the name of the State government protested against Chase's appointment, and insisted upon Cameron for the Treasury. Later advices state it is definitely determined that Chase shall have the Treasury Department. At a second interview with Cameron, he was offered the War Department. All invitations for the Cabinet will be

issued to-morrow.

There is a great run to day on the Government funds. Several bureaus, including the navy agency, have paid their last dollar. Advices from San Antonio intimate that the Government dispatch ordering Col. White to supersede Gen. Twiggs was intercepted between San Antonio and Camp Verde.

The House committee on ways and means have rejected the Senate amendment to the Post Office appropriation bill, transferring the Batterfield overland Mail Co. to the Central oute.

Great consternation was created yesterda;

Great consternation was created yesterday among the northern conservatives and border State men, by an unfounded report that Saward had declined a position in the Cabinet.

Certain Border State men declare that if Chase goes into the Cabinet, they cannot sustain Lincoln's Administration.

Despatches from Richmond announce that the secession ordinance is drafted. John Tyler is doing all he can to drive Virginia from the Union, and it is believed he will succeed, in case Lincoln's Inaugural suggests a coercive policy.

Washington, March 2.-The Secretary of War has published an official order dismissing Gen. Twiggs from the army for treachery to the flag of his country, in having surrendered, on demand of the authorities of Texas, the military posts and other property of the United States, in his department and in his charge.

States, in his department and in his charge.
Forty-three army officers have have resigned since the passage of the South Carolina ordinance of secession; several of them without reference to that subject.

The recently passed post route bill contains a section requiring ten cents prepaid letter postage toland from the Pacific Coast, without regard to distance. All droubstress without regard to distance. gard to distance. All drop letters are hereafter to be prepaid with postage stamps.

The formation of the Cabinet excites, if pos-

the formation of the Cabinet excites, if possible, more intense interest than heretotore; there being no conclusion as yet as to the several gentlemen who have been prominently named in that connection. Their respective friends are still vigorously engaged to secure their appointment. Mr. Lincoln was engaged until two o'clock this morning, hearing what ardent politicians had to say upon this subject.

Missouri Convention.

Sr. Louis, March. 1.—The Convention met at Jefferson city, at 10 o'clock a. m. Judge Gam-ble in the chair. The report of the committee Mr. Stanton hoped not, as the public business had not suffered the least detriment.

Mr. Stevenson reported resolutions adverse to the claim of Mr. Conway, of Kaneae, to full pay for the session, allowing him only from the time he was sworn in.

Mr. Sherman moved to suspend the rules re—

Mr. Stanton hoped not, as the public business ble in the chair. The report of the committee on resolutions and officers was adopted unanimously. This report included a resolution re
quiring officers and delegates to the Convention of the United States and the State of Missouri. A

motion to go into secret session was almost to take the oath to support the Constitution of the United States and the State of Missouri. A the United States and the State of Missouri. A motion to go into secret session was almost unanimously defeated. A long and quite warm discussion ensued on a motion to reconsider the vote on adopting a rule to take the above oath; after which the Convention adjourned to meet at St. Louis on Monday next.

Sr. Louis, Mo., Mar. 2.—In the Convention variants of the property of the convention of the convention

Sr. Louis, Mo., Mar. 2.—In the Convention yesterday, the motion to table the motion to reconsider the vote by which the resolution requiring the members to take an oath to support the Constitution of the United States and State of Missouri, as adopted, was lost—sixty five to thirty Members then qualified in the afternoon. The Convention permanently organized by the election of Ex-Governor Sterling Price, President, and S. L. Lowe, Secretary. The President laid before the Convention a communication from Luther J. Glenn, announcing himself a commissioner from Georgia. On motion, the communication was laid on the table. Adjourned.

North Carolina Convention Election-

North Carolina Convention Election.

Washington, March 1.—Returns from North Carolina are as follows: For Union, Wake county, 1200; Rowan, 400; Davidson, 1200; Guilford, 2,000; Alabama, Large, Orange, Johnson, and Tazewell gave large majorities for secession. Brunswick, New Hanover, Wayne, Mackienburg, Cabbras, Nash, Edinburg, Senner, Duplin, and Craven, majorities unascertained, mostly large. The results for or against Convention are indefinite.

Goldston, N. C., March 1.—Wayne county, official, gives 1,008 majority for a convention; secessionists are elected Washington county elects a secessionist by 919 majority, and gives 86 majority for a convention. Lake county, secessionists elected for a convention by 160 majority. Warren county elects soccessionists, and

designated for a convention by too ma-jority. Warren county elects soccessionists, and largely for a convention. Peirsen county un-ionists elected; the convention has a large ma-jority. Northampton county, one unionist and one secessionist; a large majority for a conven-

733. This is 532 head less than last week, and 1,131 less than This is 532 head less than last week, and 1,131 less than the average of last year. The average number at each Wednesday market last year was 2,401 head, while the number to day being 2,665, shows 726 head less than the average, and 369 head less than this day week.
Turshay, Feb. 25.—At last we are able to report one cattle market that gives almost universal satisfaction to the drovers. It is so much better than they have been of late accustomed to, and so much better than was generally expected. that the drovers are generally jolly. It is altogether the best market they have mat with in many weeks, yet not a very high one, the prices ranging from 7 to 9 cents not a pound for the bulk of the cattle, 9% cents for the very good ones, and 10 cents for extras, with a much more liberal disposition on the part of buyers in estimating weights, so that the market is fairly half a cent not a pound better for sellers thin it was this, day week, with a fair prespect of the prices holding out to the cless, as the number on sale to-day is only about 2.600 head, and we cannot learn that any considerable additions will be made to morrow, certainly not enough to mase up 5 000 head; and as the cales at Heronly about 2,000 head, and we cannot learn that any considerable additions will be made to-morrow, certainly not enough to make up 3,000 hear; and as the sales at Bergen and the down town stables during the week have not been large, the weekly supply will prove so light that it will give the butchers an opportunity to work off all the stock on hand, and be ready to absorb about 4,000 head next Tuesday and Wednesday, without any failing off from prices current to-day. Should the supply next week prove no larger than to-day, we anticipate another advance equal to that of this market as compared with last week.

week prove no larger than to-day, we anticipate another advance equal to that of this market as compared with last week.

The quality of stock to day is only average fair; there is not as large a proportion of first-class bullocks as there was last week, but as many as will sell at the advance, as butchers are generally content to risk the chances, well knowing that full supply will bring the price down again as low as it has been in any of the past weeks.—The weather to-day is extremely favorable, being just comfortably cool, and the yards, for once, quite free of mud. The trade of the morning was quite brisk, until the first-class butchers had made their purchases, then it slacked off, and continued only moderate through the day, and will close probably at dank with only haif the stock sold, as owners are holding pretty riff for the advance, and the wholesale butchers preferring to trust to their chances to morrow, rather than pay the prices to day. The market closes with a decided good feeling on the part of the owners and their brokers.

Wednesday, Feb. 27.—The market opened this morning with about 1000 head of bullocks added to the stock on hand yesterday, but that had no material effect on the prices, which are the same as yesterday, and in some cases a little higher, and butchers holding off equally hard to force a reduction. But the small number of bullocks on sale to day warrants holding them for the full raises of yesterday, which arrived this morning. These would have sold readily on Tuesday at 9c. 9 B. net, but do not find easly buyers at that to-day. There ney or was more beautiful weather in February thun is this day, and, but for the safet that every body anticipates a fuller supply of cattle next week, the advance would have been much greater, the weather being so fine that it tempts a good many to come out, and their attendance upon the market given in a lively appearance, even if they do not buy largely. We nother more country buyers than heretofore, and this shows that the supply from neighbo

Givea trille better demand for Western stock.

COWS AND CALVES.

The market for fresh Milch Cowt remains in a condition very unsatisfactory to the cow merchants, some of whom have had their goods on hand over a week, without any better prospect of sales than when they first arrived. The average price of good fair-looking Milch Cows, with Calves, is about \$50.

Veal Gaives are not much advanced in price, but the market is much more lively, and good ones are selling quieser at 72. Ph. Hire weight, than they did last week, and, probably in consequence of the advance upon mutton, the demand for cheap calf meat is better than it was a week ago.

Working Oxen are in good demand, there Working Oxen are in good demand, there being several buyers in market who want Oxen to take into the country for sale, and who are willing to pay more than the same will bring for beef. The price of some is reperted at 5 cents a pound on the scales. We noted prices ranging from \$105 to \$175 a pair. The demand for Working Oxen is so large in all the country around New York that there is avery prespect that the price will continue such as to encourage all who have Oxen to sell to bring them in during the month. After that the demand will not be an good.

bring them in during the month. After that the demand will not be so good.

THE SHEEP! MARKET.

Receipts this week, 5,405.

That prices are governed by the supply is pretty well proved this week, 5,405.

That prices are governed by the supply is pretty well proved this week, 560 they have gone up equal to a cent a pound for the net weight of meat. There seems to be a fatality attending sheep drovers, so that they are just like the animals they deal in. They always come in droves. Some days the market-places are all full, and others all empty. On Tuesday we found Browning's pens entirely empty, except half a dozen heavy sheep, part of a lot of 41 from Wayne County. N. Y. feel by Alfred Hale, which were sold at Albany at 70 \$\Phi\$ live weight, averaging about \$13. It is reported that the feeder sold 20 of them at \$15 each. They were sold here, 10 of the beatt \$16, and 19 at \$11,75, and the balance would not sell at over \$7 or \$8 each.

Another lot of \$0 long wooled, fat sheep fed by E. W. Casty, Tempkins County, N. Y., were bought by 8. Williams, at 50 \$\Phi\$ gross, and sold here at an average o \$7. These dressed 60 to 115 ib, each.

In both of the above cases, the Sheep were too fat for this issues or, when heavy Sheep do not sell as well in proportion to the home estimation of their value, as good, fat Sheep of 40 to 50 is not weight each.

THE HOG MARKET.

THE HOG MARKET.

Receipts this week 4.710.

Prices as quoted by Henry D. Grant, Superintendent of the imarket, are for corn feet Hogs, gress weight, 526200.

Ph. Distillery Hogs, 500540.

The supply light, and Hogs sold as fast as they arrived at the above quotations. No stock on hand this morning, and very little known to be on the way hither.

Scrofula, or King's Evil is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that acrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not acrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause. their children."

and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it.

To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food and exercise.

Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal melady. It is com-bined from the most active remedials that have bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OF ERYSIPILAS, PIMPLES, PURTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RIPLYS, SCALD HEAD, RINGERS and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercunial Dis-eases, Dropsy, Dyspersia, Debility, and, indeed, all Complaints arising from Vitta-TED ON IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in trath, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S

FOR THE SPEEDY CURE OF Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originat-ing in biliary derangement, caused by the Malaria of Missmatle Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure" expels the mlasmatic poison of Fever and Aour from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. This large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fevera and Aour prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine ure of Intermittents is that it contains no Oninie

other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spienn, Hystorics, Pain in the Bowels, Colic, Paralysis and Devangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Curs" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.
